## FOUR DROWNED.

Body of an Old Citizen Taken from the Willamette River.

Yesterday morning Charles B. Cardwell discovered a corpse floating in the river at the foot of Stark street. He notified the coroner, who had it removed to the morgue. The coroner went so early that at first it was difficult to identify it. Subsequently they were recognized as being those of John Kennedy, a shoemaker, whose place of business had been on South First street. Mr. Kennedy was an old resident of the city. He was a quiet, peaceable man and a good citizen. He was a member of the regular panel of jurors in the circuit court. In the afternoon Coroner Nolan held an inquest on the remains and the following testimony and verdict were obtained:

John Kennedy testified: "Sam Kennedy last night of June 6, about 3:30 o'clock, in front of the house at 1000 Stark street, was under the influence of liquor, and had been drinking for some time. He was found by me at the foot of Stark street, and was taken to the morgue. He was found with a wound on his head, and was dead."

The jury returned a verdict that the deceased came to his death by accidental drowning.

THE RAIN AND THE MOON'S PHASES.

Opinion of a Man Who Has Watched the Weather for Many Years.

An old Oregonian who has for many years observed the signs and seasons, says he heard an older man say back in the 60s that as the weather was on the last quarter of the moon, so it would be on the first of the next month. His own observation and experience corroborated this. On the strength of this example, he remarked at the beginning of last week that if there was to be any more rain this season, it might be expected the last of the week, and if it came it would be a great deal greater than a shower storm, and last night it came. The rain that came last week fulfilled this prediction, and it is his opinion that occasional showers may fall through this month. The rains of early spring and the rains of late summer and the rains of the moon was on the 22. The heavy rain of last week preceded the moon's last quarter. It is probable that climatic and meteorological changes bear some relation to the moon's phases, but it may not be an infallible rule, but the evidence of men who have carefully observed such facts as a history, it is worthy of consideration. There is a considerable belief on the part of many old citizens that the moon's phases follow the last quarter of the moon.

The Oregonian's office is in the city of Portland, Oregon, and is a part of the city of Portland, Oregon.

# SUNNYSIDE!

## THE COMING SUBURB OF PORTLAND

It Has No Equal,  
 Its Nearness to Business Centers,  
 Its Facilities of Approach,  
 Its Rich Soil,  
 Its Ample Water Supply,  
 Its Beauty and Purity of  
 Place it far away above Competitors.

THIS PLAT SHOWS THE LINE OF RAILWAY FROM THE WILLAMETTE RIVER TO SUNNYSIDE:

### WE'VE CALLED SUNNYSIDE—Because:

It is one of the sunniest tracts in Oregon.  
 It lies on the eastern limits of the city.  
 It catches the earliest beams of the rising sun.  
 In the morning, coming to town, the sun is not in your eyes.  
 Nor is it in your eyes returning in the evening.

This is one great advantage of an eastern suburb.

### ITS ACCESS FROM WILLAMETTE RIVER:

Taking the foot of N street, East Portland, and the foot of Washington street, in Portland, as starting point, Sunnyside is distant, by traveled roads from the river just the same as 19th and J sts. in Portland, and less than two-thirds the distance of 22d and S streets, in Portland.

### MEANS OF APPROACH:

The Steam Motor line will be complete and in operation the first week of July.

Time from Morrison St. to Sunnyside, 10 minutes; fare 5 c's.

The cars will run every fifteen minutes each way, from 6 A. M., every day.

The Railway Co. are under heavy bonds to fulfill the conditions for 30 years.

The base line road bounds Sunnyside on the north.

It is now being macadamized in fine form.

Hawthorne avenue bounds it on the south. It is being widened 30 feet and improved.

These two will soon be the finest driving roads near Portland.

### THE COMPANY

Now offers alternate blocks throughout the tract.

The first selections will realize immediate advantage.

The second offering will not be at present.

### TITLE:

The title is guaranteed perfect and the property free from encumbrance.

A full Warranty Deed will be given to each purchaser.

### TERMS:

One-third cash; balance on or before six and two months.

Interest at 8 per cent.

Lithographed Maps and prices at the offices.

**C. FRED CLARK & SONS, General Agents.**

Offices: 13 Stark Street, Portland, and at Sunnyside.

## ALBINA---The City of Pay Rolls and Commerce

A Wilderness in 1868---A Thriving City in 1888.

The cities of Portland and Albina are one---made so by business, trade and commerce; connected by bridges and united by a common interest. The highlands around Albina are the most fertile sites that are in or around Portland, due to drainage, ventilation and view. It is practically the head of navigation, and the terminus of the railway system of the northwest.

32,500 INVESTED IN TERMINAL WORKS, WHARVES, COAL BUNKERS, DRY DOCK, FLOURING MILL, and SAW MILLS within its corporate limits. The transcontinental railroads---the Northern Pacific, Southern Pacific, Oregon Railway and Navigation Company, and Union Pacific. Connected with Portland by numerous ferries and a new Steel Railway and Passenger Bridge. The center of dockage and shipping interests. 13,000 population, and the Willamette river and Mount Hood. Has two large and commodious school-houses and churches of all denominations. The future city of homes, commanding a view of the river and the city. The city affords fine opportunities for the capitalist.

1000 or more investments in lots or acre property, with an absolute surety of rapid advancement in values.

If you wish to look over the thriving city of Albina and her beautiful residence sites, take the Albina ferryboat (fare 5 cents) which leaves foot of Oak Street every half-hour, or visit the office of any live real estate agent.
